

# NASAL SPRAY DEVICE – UNIDOSE<sup>®</sup> XTRA

Bespak by Recipharm delivers market leading design, development, and manufacturing services for drug delivery devices to the global pharmaceutical market. Our portfolio includes inhalers, nasal technologies, and auto-injectors as well as development and manufacturing services.

Our Unidose<sup>®</sup> Xtra nasal spray device offers unique performance advantages through the use of IP – protected technologies that control device actuation and drug delivery. The benefits of our device includes:

- ▶ An ergonomic shape with ambidextrous profile
- ▶ Simple, single unit dose meaning no priming is required
- ▶ Adjustable volume levels
- ▶ Customisable spray performance for specific applications
- ▶ Patented needle-free seal
- ▶ Patented spring powered mechanisms
- ▶ Low actuation force for each use
- ▶ Single-button operation system
- ▶ Non-dependent on user or orientation
- ▶ Provides reassurance through confirmation of correct usage
- ▶ Regulatory compliant materials utilised for drug flow path and patient interaction

## Recipharm Inhalation Solutions™

Bespak by Recipharm's inhaler and nasal technologies expertise forms part of Recipharm Inhalation Solutions™, an integrated service spanning early phase development to commercial manufacture of both inhalation drug product and device.
